1. Please describe the work you do:

I am a vactor driver. I flush clean main sewers – also pump stations of all kinds. Also assist in all sorts of jobs, for fire department, hospitals, police department, water department, and the public.

2. What combination of education, vocational training, apprenticeship, experience, and/or skill did you obtain in order to be qualified and selected for your job?

I was a pipe fitter, working with metal lathes, truck driving, 27-30 years different machine's operation.

3. What do you like best about your job?

The everyday jobs that come our way, making good decisions, smart and safe ways to approach your job, learning new techniques and how to operate equipment.

4. Please tell us about the projects and activities you have enjoyed most in your work in the water/wastewater field, and what made them rewarding,

The jobs that we do at PUC are all great projects. Every day is a different day 99% of the time.

5. What qualities and capabilities are needed in order for a person in your area of expertise to be successful in the water/wastewater industry?

Have a positive attitude. We are willing to work hard every day. Be fit and ready for any approach that comes your way. Never give up. The public is always looking at what you're doing. They want to know, we are more than happy to indulge.

6. Do you have any advice for an individual who is considering pursuing a career in your field in the water/wastewater industry?

Be ready for all sorts of jobs small and big. Be a true professional in everything you do. Always stay positive. Be loyal to your craft, you will be better for it.
