Here is an important tip – be accurate!
Look it up, don’t just guess!
Most information will get verified.
Read and follow instructions carefully

- Always take a few minutes to review the entire application. Some applications ask for information differently -- and all have specific spaces in which you are expected to answer questions.

- Think of the application as your first test in following instructions.

- Don’t leave any blanks! (at least put in n/a) Don’t put “see resume”!!!

- Attach your resume, work samples, appropriate materials (No, do not attach your 87 page thesis . . . )

Here at the District:

- Include Employment History for the past ten years.
- List your present or most recent job first, excluding volunteer or non-paid work experience (list it under activities/hobbies).
- List separately each position held, even if with the same employer.
- If relevant to the position for which you are applying, also list positions you have held prior to the last ten years.
- A response of “See Resume” will disqualify your application.
- If your application is incomplete, it will be rejected from consideration.
Need I say it? PROOFREAD your app!

• Check for spelling and grammatical errors. Proofread your job application before turning it in.

• Double check that you answered all questions thoroughly and accurately.

• Ask someone else to proof it for you – second eyes are invaluable.

(then take them to coffee -- they deserve it!)
