

#ThankWaterPros Webinar Series Veterans in Water: Continue Serving Your Community

Jose Martinez
Moderator, Otay Water District

FREE WEBINAR • YOU'RE INVITED Thursday, October 8th, 11:00 a.m. - Noon

California's water utilities are hiring now. They'll hire thousands of highly-skilled professionals for water jobs this year. Your skills as a veteran could be exactly what water utilities are looking for. Dive into the California water profession. We can show you how!

We're hosting a very special one hour webinar featuring four veterans who work on the frontlines of California water. The webinar is free and everyone is welcome. We're also celebrating these amazing water professionals and California water workers during Water Professionals Week, October 3-11.

How do you get started in a career in water/wastewater? Is there synergy between the military and water sector? What is the municipal/civil service hiring process like? What resources should the water sector build to make transitioning easier for veterans?
